About us 关于我们

Market is Booming 市场正在蓬勃发展

The Industry is transforming from a stand alone product into an integrated product that comes along with the bike. This is expected to increase sales substantially. We are on the verge of this stage.

自行车产业由原始单一销售模式不断转型升级为集成销售，这一转型将大幅促进销售，我们正处于转型的风口浪尖。

Source: PMR (Bicycle Market: Global Industry Analysis 2013-2017 and Forecast 2018-2026), Statista

What is a Cycling Power Meter? 什么是自行车功率计？

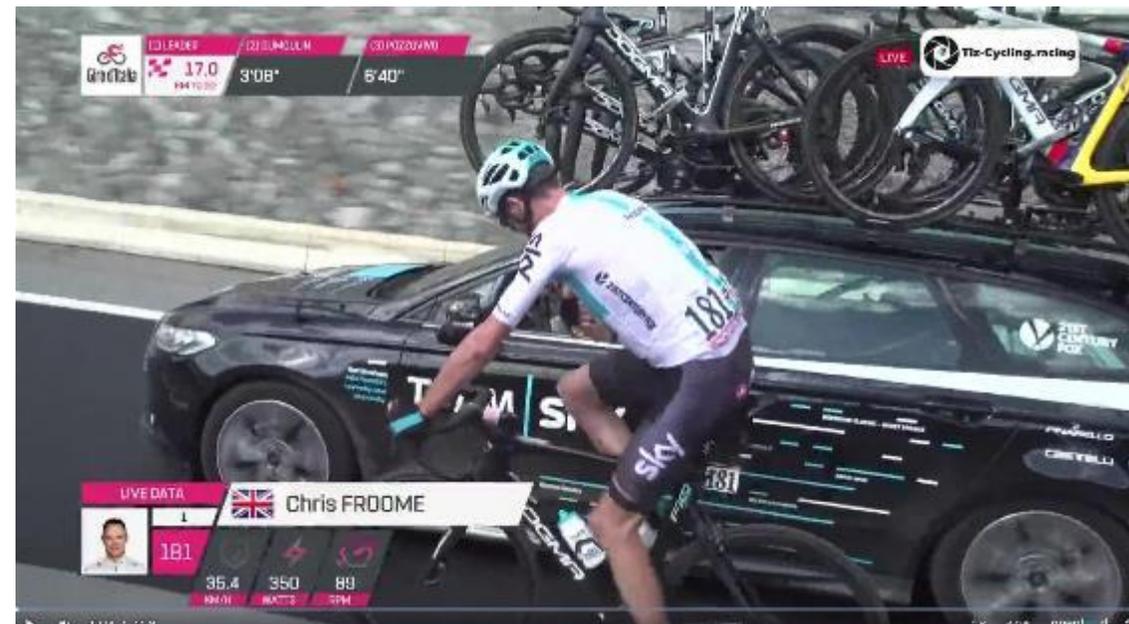

A Cycling Power Meter is an electronic device attached onto the bicycle.

It measures the power output (Watts or Calories) which the cyclists provides. Power based training is considered the number one method to improve cycling performance at all levels, both amateurs and pros, by helping identify strengths and weaknesses, and reducing risk of injury.

自行车功率计是一款连接在自行车上的电子设备。它测量骑车人提供的功率输出（瓦特或卡路里）。基于力量的训练被认为是可以识别运动员优劣势并降低受伤风险，在各个级别的业余爱好者和专业人员中提升骑行表现的首选方法。

Demand & Usage 需求和使用

Giro de Italia 2018 (2nd largest bike race in the world) - 850 Million Viewers.

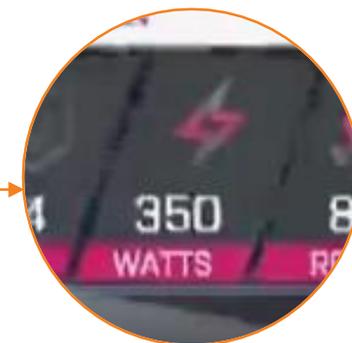

Fans from all over the world were introduced to power meters.

Thus creating the ongoing demand for amateur cyclists to use power data.

Giro de Italia 2018 (世界第二大自行车赛) - 8.5亿观众。

功率计被介绍给了来自世界各地的球迷。

这也为业余自行车爱好者使用功率数据而创造了持续性的需求。

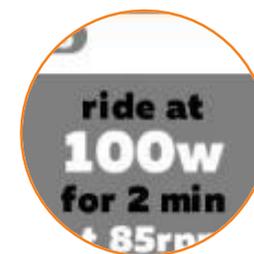

Demand & Usage 需求和使用

In addition, the technology allows to ride indoor, at home, while seeing yourself in real-time on the screen, with your friends. The sensor that allows this – a power meter.

此外、该技术还可以让您在室内、家中、同时与您的朋友进行实况交流。实现这项技术的传感器就是一功率计。

The way bike manufacturers chose to increase their market share is by adding a power meter to new bikes.

The industry is looking at Power Meters as the new component that will make their bike complete, for today's clients needs.

Therefore they demand to integrate a high quality power meter to sell with their bikes.

In order to be attractive, the integrated tech must have low production costs, and to be compatible with the ever changing, multiple standards that are being used.

自行车制造商增加自己的市场份额的方法是在自行车上增加功率计。

为满足如今客户需求，该行业将功率计视为自行车完整组装的配件之一。

因此他们需要一款高质功率计可以与自行车一起销售。

为了提高吸引力，该集成技术须具备较低的生产成本，并且能够与正在使用的和不断变化的产品以及多种标准相兼容。

The Watteam Smart Crank is The Solution for Bike Brands.

- We engineered a fully-featured, low-cost power meter, compatible with all bikes.
- Measuring more than 200 times second, using advanced sensors, calculating the direct force applied, and transmitting in real time.
- By utilizing more algorithm and less sensors and hardware, the price is the lowest in the industry!
- Watteam's solution fulfills all their needs.

Watteam Smart Crank 是自行车品牌的解决方案。

- 我们设计的这款功率计功能齐全，价格低廉，可与所有自行车兼容。
- 测量频率超过 200 次/秒，使用先进的传感器，计算直接施加力量，并进行实时数据传输。
- 通过使用更多的算法和更少的传感器和硬件，价格是业内最低的！
- Watteam 提供的解决方案可以满足以上所有需求。

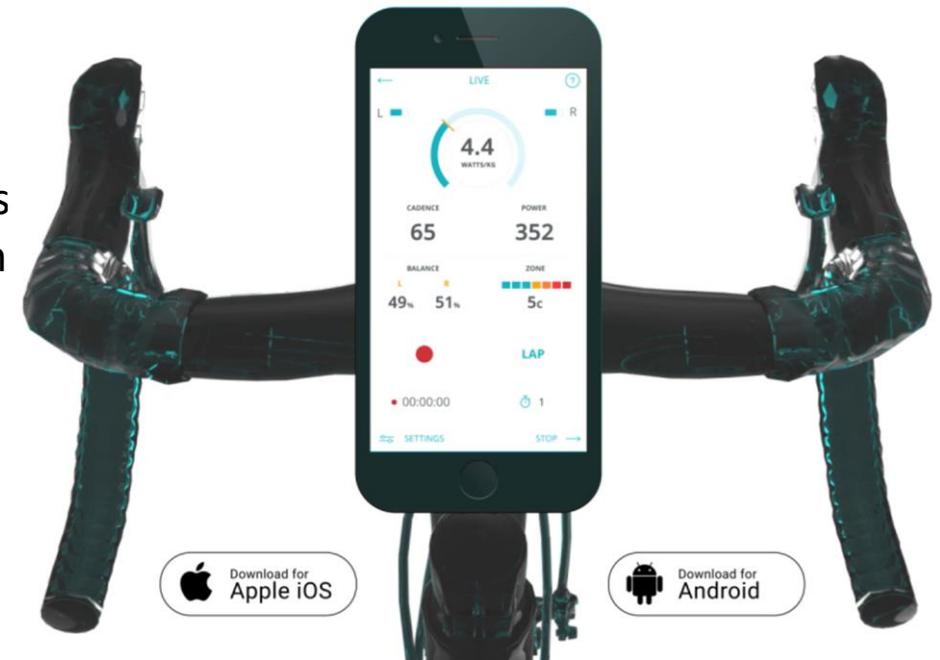

Watteam POWERBEAT G3：我们的解决方案基于成熟的技术和算法 – 这款附加式骑行功率计已经在全球大量生产和销售。在不到一年的时间内销售额已超过300万人民币。记录在案的长达1000小时的实际使用时间。收集、分析并贯彻实施了众多顾客的评论和反馈。

Our solution is based on the proven technology and algorithm of the Watteam POWERBEAT G3 – our Add-on version Cycling Power Meter which is already mass-produced and sold worldwide. Resulting in more than 3 million RMB revenue in less than a year. Accumulated 1000's of hours of recorded real life use. Gathered, analyzed and implemented many customer reviews and feedback.

The Future of Cycling 骑行行业的未来

Watteam is also leading the next industry leap. The data revolution.

For the first time in the industry Watteam presents the **IoT** and **Big Data** to the cycling industry.

Today bike manufacturers don't know the end user's characteristics and behavior.
Not even his name!

Watteam也将领导下一个行业领域的飞跃-- 数据革命。

Watteam首次在自行车行业领域展现物联网和大数据。

现况是，自行车制造商不知道终端用户的特征和行为。
甚至连客户的名字也不知道！

Integrated Power Meter in every bike

Usable Information
About The User
有关用户的可用信息

Our infrastructure turns the smart crank into an IoT device. Then, by gathering accurate user data and transmitting to the app, and to big data cloud, we allow bike brands to engage and become familiar with their customers. Watteam allows to create customized reports per customer.

我们的基础设施将智能曲柄演变成一款物联网设备。然后，通过收集准确的用户数据并传输到应用程序和云数据端，自行车品牌商可以参与并熟悉他们的终端客户。Watteam还可以为每个客户创建私人定制报告。

Interest in Watteam's tech is huge, and coming from wide range of potential partners

Bike Brands – in discussions with 5 of the top 10 leading global brands

Bicycle Crank manufacturers - Testing with 5 of the 6 largest players

Stationary bike manufacturers – Engineering process with Manhattan based, World Leading Online Spinning Classes

GPS, Cycling Computers and Social Cycling App Companies – Working with the 2 biggest Chinese cycling data companies

来自广泛领域的潜在合作伙伴都对Watteam的技术产生了浓厚的兴趣。

自行车行业品牌 – 与全球十大顶级品牌中的5家进行讨论

自行车曲柄制造商 - 测试过6个最大的玩家中的5个

顶级健身车制造商- 与以曼哈顿为基础的世界领先的在线动感单车课程工程合作

GPS、骑行电脑设备和社交骑行应用公司 - 与中国最大的两家自行车数据公司合作

公司估价1400万美元

“Watteam has succeeded at their goal – they brought forth a dual-leg capable power meter below \$500 – something that nobody else has done.”

DC Rainmaker

“功率计是极其精密的器材，目前市面大部份的功率计均是密封系统，自行车零件的装配环节严重依赖厂家，而一群来自以色列的工程师设计开发出了一款名为 Watteam POWERBEAT 的功率计打破了这一僵局.... 在产品层面，POWERBEAT是一个真正的双边功率计，左右侧都有独立模块，可以真实测量双腿功率的不同，而不是单纯用算法模拟，并且价格比众多单边功率计还要便宜。”
