Call for evidence to identify UK interest in existing EU trade remedy measures

Annex B: list of existing measures

If you want to know more detail about the cases, please click on the underlined case name to be taken to the relevant case history page on the European Commission's website. Detailed product descriptions are usually included at the start of the document which you will find attached in the 'Publication details' column at 'Initiation.

If you are not sure whether your products are the same as the ones referred to in a case, the European Union's definition of 'like products', at Article 1, clause 4 of European Union Regulation 2016/1036, defines them as "like product' means a product which is identical, that is to say, alike in all respects, to the product under consideration, or, in the absence of such a product, another product which, although not alike in all respects, has characteristics closely resembling those of the product under consideration."

This is the accurate list as of the 22 November 2017.

If you have any questions, please email traderemedies@trade.gsi.gov.uk.
